

# DIAGRAM WORKSHOP

Starting from GLA304 case as basis, choose a topic that you are interested in, consider important, or would like to explore. The topic you select could be:

- **ABSTRACT:** Core idea, overarching strategy, methodical approach
- **CONCRETE:** Morphology, urban spaces, landscapes, infrastructure, architecture...
- **CULTURAL:** Class division, demographics, cultural heritage, local history, events...
- **SOCIAL:** Personal narrative, everyday life, work life, friendships, love, drama...

Based on this topic,  
you are to describe three things:

What is the **context**?

Where lies the **problem** within your context?

What is your **solution**?

**Time:** 30 minutes

**Groups:** 3-4 students per group, as per the Excel sheet

**Format:** A4 sheet - illustrate it, supplement with text as needed

## TIPS!

The simpler, the better.

Work smart, not hard.

Find a balance between drawing and text.

The best responses are self-explanatory.

There's no single correct answer, but multiple interesting ones!
